Doctors Notes:

## NEUROLOGICAL & METABOLIC CASE HISTORY

What is the main problem/symptom that you are having?

List other symptoms you are currently experiencing even if not related to complaint listed above:

Describe what you are feeling (diffuse, dull, ache, sharp, burning, cramping)?

When did this begin?

How did this begin?

Have you had this or similar conditions in the past?

If yes, when?

What makes your condition worse?

What makes your condition better?

Do you experience Numbness or Tingling?

If yes, where? Does it radiate down the arm(s), leg(s), back or other?

SYMPTOM INTENSITY: Please choose the number describing the intensity of symptoms.

When you are awake, how often are you feeling these symptoms? (0-100%)

Does this affect you at night?

When do you experience this throughout the day (AM/PM/All Day)?

How many days per week do you experience your main complaint?

Is this progressively getting worse?

Is your condition:                      Constant                      Comes & Goes

Have you had any treatment for this problem in the past?

If yes, when/by whom?

How did the previous method(s) work for you?

Are there any conditions that run in your family?

If yes, what condition(s) and what family member?

When was your last: Physical

Blood/lab work

X-ray

MRI

Have you been treated for your current condition before?

If yes, when/by whom?

Surgical History: Please list the type and reason of surgery, and year performed (e.g. left breast for cancer in 2004)

## REVIEW OF SYSTEMS

Changes in or loss of smell?      Normal      Loss      Increased      Decreased

Monovision Correction?

Visual changes or loss of vision?

Difficulty with visual focus or activity?

Double vision? If yes, in which direction?

Dry eyes?      Dry Mouth?      Excessive tearing or saliva?

Weakness or numbness of the face?

Difficulty hearing      Ringing in the ears?

Maintaining balance with or without head movements?

Light headedness/dizziness when rising from a lying or seated position?

Sensations of spinning? If yes, which direction?

Difficulty swallowing foods?

Poor digestion?      Constipation?      Diarrhea?      Abnormal bowel movements?

Bladder control issues?

Changes in sexual function or ability?

Increasing food sensitivities?      Gluten?      Dairy?      Other?

Excessive bloating?

Difficulty shrugging or raising your arms or shoulders?

Slurring your words or your tongue feeling thick?

Sweaty hands or feet?

Cold hands or feet?

Noticeable sweating difference on the right or the left?

**Please check any of the following conditions or complaints that you have or are experiencing**

AD/HD	Adrenal Disorder	Anxiety	Arthritis	Asthma
Atypical Facial Pain	Arm or Leg Pain	Autoimmune Condition	Balance Problems	Bleeding Disorder

Neck Pain	Osteoporosis/Pena	Regional Pain Synd. (CRPS)	Rotator Cuff Issues	Shoulder Pain
Stroke/TIA	STI/STD	Tremors	Trigeminal Neuralgia	TMJ
Thyroid Issues	Tuberculosis	Tingling Burning Numbness in Hands or Feet		Vertigo

**PATIENT FINANCIAL RESPONSIBILITY PATIENT RECORD OF DISCLOSURES/HIPAA ACKNOWLEDGEMENT**

Thank you for choosing Colorado Springs Chiropractic. We are committed to providing you with the highest quality healthcare. We ask that you read and sign this form to acknowledge your understanding of our Patient Financial Responsibility Policies and HIPPA Acknowledgment.

**INSURANCE:** The patient (or patient's guardian, if a minor) is ultimately responsible for the payment for treatment and care. We will bill your insurance for you; however, it is the patient's responsibility to know the details of their insurance in addition to any lapses in insurance coverage. If you do not inform us of special requirements required by your plan, and we provide medically necessary services that are not covered by your plan, we may bill you directly for those charges.

**COPAYS, DEDUCTIBLES & CO-INSURANCE:** All patients are responsible for their co-payments, deductibles, and past due balances at the time of service.

**CANCELLATION/NO SHOW OF APPOINTMENTS:** When an appointment is not kept, it creates an unused appointment slot that could have been used for another patient. It is very important that you call to cancel your appointment. **If for any reason you need to cancel or reschedule an appointment, please notify our office within 24 hours to avoid a fee of \$30.00 for cancellation or \$45 for no shows.**

**RETURNED CHECKS:** There will be a \$25 service fee for any check returned for insufficient funds.

**E-MAIL/TEXT MESSAGING:** Patients in our office may be contacted via email and/or text messaging to remind you of an appointment, to obtain feedback on your experience and to provide general health reminders/information. If at anytime you provide an e-mail or text address at which you may be contacted, you are consent to receiving appointment reminders and other healthcare information/communications at that email/text address from the Practice. *This practice does not charge for this service, but standard text messaging rates may apply as provided in your wireless plan (contact your carrier for pricing plans and details).*

I consent to receive text messages from the practice at my cell phone or e-mail as stated below I understand that this request to receive emails and text messages will apply to all future appointment reminders/feedback/health information.

**PLEASE NOTE THAT ANY BENEFIT INFORMATION FURNISHED IS NOT A GUARANTEE OF PAYMENT NOR A DETERMINATION OF MEDICAL NECESSITY AND FINAL CLAIM DETERMINATION WILL BE MADE UPON RECEIPT AND REVIEW OF THE CLAIM. THE PATIENT IS RESPONSIBLE FOR ALL BALANCES OUTSTANDING.**

In general, the HIPAA privacy rule gives individuals the right to request a restriction on uses and disclosures of their protected health information (PHI). The individual is also provided the right to request confidential communications or that a communication of PHI be made by alternative means, such as sending correspondence to the individual's office instead of the individual's home.

**I wish to be contacted in the following manner(check all that apply):**

- Home Phone:
- Cell Phone:
- E-Mail:

I authorize Dr. Doyle to discuss my protected health information with the following family members or healthcare providers that are caring for me. I authorize the release of my medical health records from/to other healthcare providers that are caring for me.

## **Informed Consent Document**

To the patient: Please read this entire document prior to signing it. It is important that you understand the information contained in this document. Please ask questions before you sign if there is anything that is unclear.

### **The nature of the chiropractic adjustment**

The primary treatment we use as a Doctor of Chiropractic is spinal manipulative therapy (SMT, CMT). We will use this procedure to treat you. We may use our hands or a mechanical instrument upon your body in such a way as you move your joints. That may cause an audible "pop" or "click", much as you have experienced when you "crack" your knuckles. You may feel a sense of movement.

### **Analysis/Examination/Treatment**

As part of the analysis, examination, and treatment, you are consenting to the following procedures:

- Spinal manipulative therapy    --Palpation    --Vital Signs
- Range of motion testing    --Orthopedic testing    --Neurological testing
- Postural analysis    --EMS/TENS/Galvanic    --Imaging and Lab studies as indicated
- hot/cold therapy    --Stretching    --massage therapy    --exercise rehabilitation
- Microcurrent    --low level laser therapy    --SSEP    --Functional medicine/supplements    --Other \_\_\_\_\_

### **The material risks inherent in chiropractic care**

As with any healthcare procedure, there are certain complications which may arise during chiropractic manipulation and physiotherapy. These complications include but are not limited to: fractures, disc injuries, dislocations, muscle strains, ligament sprains, cervical myelopathy, and burns. Some types of manipulation of the neck have been associated with injuries to the arteries in the neck leading to or contributing to complications including stroke (CVA). Some patients will feel some stiffness and soreness following the first few days of treatment. I will make every reasonable effort during the examination to screen for contraindications to care; however, if you have a condition that would otherwise not come to my attention, it is your responsibility to inform me. Cauda Equina Syndrome has been reported in rare cases which requires immediate medical care.

### **The probability of those risks occurring**

Statistically, Chiropractic Care has been demonstrated to be one of the safest of all healthcare practices. Fractures are rare occurrences and generally result from some underlying weakness of the bone which I check for during the raking of your history and examination. CVA has been the subject of tremendous disagreement. The incidences of stroke are exceedingly rare and are estimated to occur one in five million cervical adjustments. Two major studies (2008, 2015) showed there was not causation between CMT and CVA but rather the patient was already presenting with arterial dissection. The other complications are also generally described as rare.

### **The availability and nature of other treatment options**

Other treatment options for your condition may include:

- Self-administered, over-the-counter (OTC) analgesics, ice, head or rest.
- Medical care and prescription drugs such as anti-inflammatories, muscle relaxants and pain killers.
- Hospitalization/Surgery

If you choose to use on of the above noted "other treatment" options, you should be aware that there are severe risks associated with these treatments. Many patients taking OTC NSAID's such as Ibuprofen and Acetaminophen are not aware that every year there are thousands of deaths associated with their use. No medicine should ever be taken without discussing their side effects and inherent statistical danger with their primary care physician or pharmacist. The PDR is also a good reference regarding pharmaceutical use.

### **The risks and dangers attendant to remaining untreated**

Remaining untreated may create adhesions or scar tissue that can weaken the area and reduce mobility. Further joint degeneration may occur as well as the development of chronic pain syndromes. Over time this process may complicate treatment making it more difficult and less effective the longer it is postponed.

### **DO NOT SIGN UNTIL YOU HAVE READ AND UNDERSTAND THE ABOVE.**

*I have read or have had read to me the above explanation of the chiropractic adjustment and related treatment. By signing below I state that I have weighed the risks involved in undergoing treatment and have decided that it is in my best interest to undergo the treatment recommended. Having been informed of the risks, I hereby give my consent to that treatment.*

## Health-care provider lien – disclosure to injured person

You as my patient (injured person) are entering into a lien agreement to receive health-care services from my office. As required by Colorado law, you are hereby advised of the following:

There are potential methods for payment for a health-care provider's billed charges:

- (I) The creation of a health-care provider lien;
- (II) The use of benefits available from any payer of benefits as defined in section 38-27-101 (9) to which the injured person is a beneficiary, including that the injured party can obtain information about the payer of benefits' network from the payer benefits of the health-care provider;
- (III) Any other payment method or arrangement agreed to in writing by both the health-care provider or its assignee and the injured person; and/or
- (IV) A combination of the payment methods specified in subsections (1)(a)(I) to (1) (a) (III) of C.R.S. 38-27.5-101 et. seq.

The health-care provider or its assignee is not a health insurer or payer of benefits;

Except in the event of fraud or misrepresentation by the injured person:

- (I) If the injured person does not receive a judgment, settlement, or payment on the injured person's claim against third parties or under an uninsured or underinsured motorist policy, the injured person is not liable to the holder of the health-care provider lien for any portion of the health-care provider lien;
- (II) If the injured person received a net judgment, settlement, or payment that is less than the full amount of the health-care provider lien, the injured person is not liable to the holder of the health-care provider lien for any amount beyond the net judgment, settlement, or payment, and the holder of the health-care provider lien may not file a complaint or counterclaim against the injured person directly to be reimbursed for any amount beyond the net judgment, settlement, or payment.

Nothing prevents a health-care provider or its assignee from initiating a declaratory judgement action or participating in an interpleader action or claim pursuant to the Colorado rules of civil procedure, or any other similar action or claim, to determine the health-care provider's or its assignee's share of the injured person's net judgment, settlement, or payment.

The health-care provider or its assignee may not assign a health-care provider lien to a collection agency or debt collector;

A health-care provider's assignee's compensation from the injured person is based on the difference between the health-care provider's usual and customary billed charge and the amount that the assignee pays to purchase the health-care provider lien;

Of any common ownership interest between the holder of the health-care provider lien and the injured person's legal counsel;

---

Initials

Of any common ownership interest between the assignee of a health-care provider lien and any health-care provider who is providing treatment or who may provide treatment to the injured person under the terms of the health-care provider lien.

If the injured person has obtained health insurance even after a health-care provider lien has been created and the injured person or the injured person’s legal counsel so informs the holder of the health-care provider lien, all future care may be billed to the health insurance carrier at the injured person’s discretion.

Nothing in this section changes any obligation of the health-care provider or its agents under the “Colorado Medical Assistance Act”, articles 3 to 6 of title 25.5.

Upon request by the injured person or the injured person’s legal counsel, the holder of a health-care provider lien shall provide in writing to the injured person an itemized statement of all the billed charges for treatment comprising the total value of the health-care provider lien as the billed charges are accrued, to the extent practicable, and when the health-care provider lien is final, the final itemized statement must include a summary of all treatments provided, the total amounts billed for each treatment, and the total amount of the health-care provider lien due and owing.

# Headache Disability Index

Patient Name:

Date:

## INSTRUCTIONS:

Please CHECK the correct response:

1. I have headache:    1x per month    more than 1x but less than 4x per month    more than 1x per week

2. My headache is:    mild    moderate    severe

### Please read carefully:

The purpose of the scale is to identify difficulties that you may be experiencing because of your headache. Please select "YES", "SOMETIMES", or "NO" from the drop down box. Answer each question as it pertains to your headache only.

F1. Because of my headaches I feel handicapped.

F2. Because of my headaches I feel restricted in performing my routine daily activities.

E3. No one understands the effect my headaches have on my life.

F4. I restrict my recreational activities (e.g., sports, hobbies) because of my headaches.

E5. My headaches make me angry.

E6. Sometimes I feel that I am going to lose control because of my headaches.

F7. Because of my headaches I am less likely to socialize.

E8. My spouse (significant other), or family and friends have no idea what I am going through because of my headaches.

E9. My headaches are so bad that I feel that I am going to go insane.

E10. My outlook on the world is affected by my headaches.

E11. I am afraid to go outside when I feel that a headache is starting.

E12. I feel desperate because of my headaches.

F13. I am concerned that I am paying penalties at work or at home because of my headaches.

E14. My headaches place stress on my relationships with family or friends.

F15. I avoid being around people when I have a headache.

F16. I believe my headaches are making it difficult for me to achieve my goals in life.

F17. I am unable to think clearly because of my headaches.

F18. I get tense (e.g., muscle tension) because of my headaches.

F19. I do not enjoy social gatherings because of my headaches.

E20. I feel irritable because of my headaches.

F21. I avoid traveling because of my headaches.

E22. My headaches make me feel confused.

E23. My headaches make me feel frustrated.

F24. I find it difficult to read because of my headaches.

F25. I find it difficult to focus my attention away from my headaches and on other things.

For Office use Only: TOTAL SCORE:

Scoring Yes = 4 Points    Sometimes = 2 Points    No = 0 Points

Other Comments:

I certify that I have completed this form accurately to the best of my knowledge

# Neck Pain Disability Index Questionnaire

Patient Name:

Date:

Please read: This questionnaire is designed to enable us to understand how much your back pain has affected your ability to manage everyday life. Please answer each section by selecting the **ONE CHOICE** from the drop down box that most applies to you. We realize that you may feel that more than one statement may relate to you, but please **just select the one choice which closely describes your problem right now.**

## SECTION 1 – Pain Intensity

- A I have no pain at the moment.
- B The pain is very mild at the moment.
- C The pain is moderate at the moment.
- D The pain is fairly severe at the moment.
- E The pain is very severe at the moment.
- F The pain is the worst imaginable at the moment.

## SECTION 2 – Personal Care

- A I can look after myself normally without causing extra pain.
- B I can look after myself normally, but it causes extra pain.
- C It is painful to look after myself and I am slow and careful.
- D I need some help but can manage most of my personal care.
- E I need help every day in most aspects of self-care.
- F I do not get dressed, I wash with difficulty and stay in bed.

## SECTION 3 – Lifting

- A I can lift heavy weights without extra pain.
- B I can lift heavy weights, but it causes extra pain.
- C Pain prevents me from lifting heavy weights off the floor, but I can manage if they are conveniently placed, for example on a table.
- D Pain prevents me from lifting heavy weights off the floor, but I can manage if they are conveniently positioned, e.g., on a table.
- E I can only lift very light weights at the most.
- F I cannot lift or carry anything.

## SECTION 4 – Reading

- A I can read as much as I want to with no pain in my neck.
- B I can read as much as I want to with slight pain in my neck.
- C I can read as much as I want to with moderate pain in my neck.
- D I can't read as much as I want because of moderate pain in my neck.
- E I can hardly read at all because of severe pain in my neck.
- F I cannot read at all.

## SECTION 5 – Headache

- A I have no headaches at all.
- B I have slight headaches, which come infrequently.
- C I have moderate headaches, which come infrequently.
- D I have moderate headaches, which come frequently.
- E I have severe headaches, which come frequently.
- F I have headaches almost all the time.

## SECTION 6 – Concentration

- A I can concentrate fully when I want to with no difficulty.
- B I can concentrate fully when I want to with slight difficulty.
- C I have a fair degree of difficulty in concentrating when I want to.
- D I have a lot of difficulty in concentrating when I want to.
- E I have a great deal of difficulty in concentrating when I want to.
- F I cannot concentrate at all.

## SECTION 7 – Work

- A I can do as much work as I want to.
- B I can only do my usual work, but no more.
- C I can do most of my usual work, but no more.
- D I cannot do my usual work.
- E I can hardly do any work at all.
- F I can't do any work at all.

## SECTION 8 – Driving

- A I can drive my car without any neck pain.
- B My social life is normal but increases the degree of my pain.
- C Pain has no significant effect on my social life apart from limiting my more energetic interests, e.g., dancing, etc.
- D Pain has restricted my social life, and I do not go out very often.
- E Pain has restricted my social life to my home.
- F I have hardly any social life because of the pain.

## SECTION 9 – Sleeping

- A I have no trouble sleeping.
- B My sleep is slightly disturbed (less than 1 hr sleepless)
- C My sleep is mildly disturbed (1-2 hrs sleepless)
- D My sleep is moderately disturbed (2-3 hrs sleepless)
- E My sleep is greatly disturbed (3-5 hrs sleepless)
- F My sleep is completely disturbed (5-7 hrs sleepless)

## SECTION 10 – Recreation

- A I am able to engage in all of my recreational activities with no neck pain at all.
- B I am able to engage in all of my recreational activities with some pain in my neck.
- C I am able to engage in most, but not all of my recreational activities because of pain in my neck.
- D I am able to engage in a few of my recreational activities because of pain in my neck.
- E I can hardly do any recreational activities because of pain in my neck.
- F I cannot do any recreational activities at all.

I certify that I have completed this form accurately to the best of my knowledge

# Revised Oswestry Low Back Pain Questionnaire

Patient Name:

Date:

Please read: This questionnaire is designed to enable us to understand how much your back pain has affected your ability to manage everyday life. Please answer each section by selecting the **ONE CHOICE** that most applies to you. We realize that you may feel that more than one statement may relate to you, but please **just select the one choice which closely describes your problem right now.**

## SECTION 1 – Pain Intensity

- A The pain comes and goes and is very mild.
- B The pain is mild and does not vary much.
- C The pain comes and goes and is moderate.
- D The pain is moderate and does not vary much.
- E The pain comes and goes and is severe.
- F The pain is severe and does not vary much.

## SECTION 2 – Personal Care

- A I do not have to change my way of washing or dressing to avoid pain.
- B I do not normally change my way of washing or dressing even though it causes some pain.
- C Washing and dressing increases the pain, but I manage not to change my way of doing it.
- D Washing and dressing increases the pain and I find it necessary to change my way of doing it
- E Because of the pain I am unable to do some washing and dressing without help
- F Because of the pain I am unable to do any washing and dressing without help.

## SECTION 3 – Lifting

- A I can lift heavy weights without extra pain.
- B I can lift heavy weights, but it causes extra pain.
- C Pain prevents me from lifting heavy weights off the floor.
- D Pain prevents me from lifting heavy weights off the floor, but I can manage if they are conveniently positioned, e.g., on a table.
- E Pain prevents me from lifting heavy weights, but I can manage light to medium weights if they are conveniently positioned.
- F I can only lift very light weights at the most.

## SECTION 4 – Walking

- A I have no pain on walking.
- B I have some pain on walking, but it does not increase with distance.
- C I cannot walk more than one mile without increasing pain.
- D I cannot walk more than 1/2 mile without increasing pain.
- E I cannot walk more than 1/4 mile without increasing pain.
- F I cannot walk at all without increasing pain

## SECTION 5 – Sitting

- A I can sit in any chair as long as I like.
- B I can sit only in my favorite chair as long as I like.
- C Pain prevents me from sitting more than one hour.
- D Pain prevents me from sitting more than 1/2 hour.
- E Pain prevents me from sitting more than 10 minutes.
- F I avoid sitting because it increases pain straight away.

## SECTION 6 – Standing

- A I can stand as long as I want without pain.
- B I have some pain on standing but it does not increase with time.
- C I cannot stand for longer than one hour without increasing pain.
- D I cannot stand for longer than 1/2 hour without increasing pain.
- E I cannot stand for longer than 10 minutes without increasing pain.
- F I avoid standing because it increases the pain immediately.

## SECTION 7 – Sleeping

- A I get no pain in bed.
- B I get pain in bed, but it does not prevent me from sleeping well.
- C Because of pain my normal night's sleep is reduced by less than 1/4.
- D Because of pain my normal night's sleep is reduced by less than 1/2.
- E Because of pain, my normal night's sleep is reduced by less than 3/4.
- F Pain prevents me from sleeping at all.

## SECTION 8 – Social Life

- A My social life is normal and gives me no pain.
- B My social life is normal but increases the degree of my pain.
- C Pain has no significant effect on my social life apart from limiting my more energetic interests, e.g., dancing, etc.
- D Pain has restricted my social life, and I do not go out very often.
- E Pain has restricted my social life to my home.
- F I have hardly any social life because of the pain.

## SECTION 9 – Traveling

- A I get no pain while traveling.
- B I get some pain while traveling, but none of my usual forms of travel make it any worse.
- C I get extra pain while traveling, but it does not compel me to seek alternative forms of travel.
- D I get extra pain while traveling, which compels me to seek alternative forms of travel.
- E Pain restricts all forms of travel.
- F Pain prevents all forms of travel except that done lying down.

## SECTION 10 – Changing Degree of Pain

- A My pain is rapidly getting better.
- B My pain fluctuates but overall is getting better.
- C My pain seems to be getting better, but improvement is slow at present.
- D My pain is neither getting better nor worse.
- E My pain is gradually worsening.
- F My pain is rapidly worsening.

I certify that I have completed this form accurately to the best of my knowledge
